Consumer Confidence Report  
~ Spring 2015 Newsletter ~

As required by Washington State Department of Health, a report on your water quality is included. The District routinely samples for microbial contaminants such as Salmonella Bacteria, Esch. coli and Total Coliform, which may come from the environment, septic systems, agricultural livestock operations and wildlife. During 2014, 4 tests were taken and all tests were negative for presence of these contaminants.

**Water Saving Tips**

- Water is easy and it starts with you! When you use water efficiently, you save money on your water, gas, and energy bills too. The average household spends as much as $500 a year on its water and sewer bill and can save about $120 per year by doing a few simple things to use water more efficiently. For a list of water saving tips contact N.S.I.D #8 at 467-6727.

Emergency Intermittie

The District has an emergency intermitte at Franklin & Freya with the City of Spokane if an event were to occur that required a back-up water supply.
