New Local Government Application

- Certification Visits have not been possible due to COVID-19 so Tonilee has worked with the EnviroCertified Steering Committee members to develop a new EnviroCertified application for Local Governments.
- From 2017-2019, the City of Spokane has been our test for certifying government departments: Fleet Services, Parks & Recreation Maintenance, and Aquatic Centers. The new application will make it possible to certify other city and county services to ensure best management practices with hazardous waste.
- Services that will be certified are shown below.

Check all services that apply.
