<td><strong>Federal Action Level</strong></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.</td>
</tr>
</tbody>
</table>

Drinking water, including bottled water, may reasonably be expected to contain small amounts of some contaminants. The presence of contaminants does not indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Some People may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemo-therapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen risk of infection to Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

As you can see by the table, our system had no violations above the allowed Maximum Contaminant Levels. We’re proud that your drinking water meets or exceeds all Federal and State requirements.

**Hutchinson Irrigation District #16**
**Annual Drinking Water Quality Report**
Mandatory Health-Related Standards Are Established by the Washington State Department of Health

**Water conservation is important.**
**Limit Yard Watering to 45 minutes per station or less!**
**Water in the early morning or evening, this will help conserve water and prevent waste!!**

Abbreviations
ND = Not Detected
ppm = parts per million
ppb = parts per billion
µCi/l = picocuries per liter (a measure of radioactivity)
AL = Action Level
SRL = State reporting level
mg/L = milligrams per liter
pCi/L = picocuries per liter (a measure of radioactivity)

Contact Person: Terry Squibb
Superintendent

Regular Scheduled Board Meetings are held every second Monday of the month at 7:30, p.m.
